

CSMSS
**CHH. SHAHU COLLEGE OF ENGINEERING, CHHATRAPATI
SAMBHAJINAGAR**

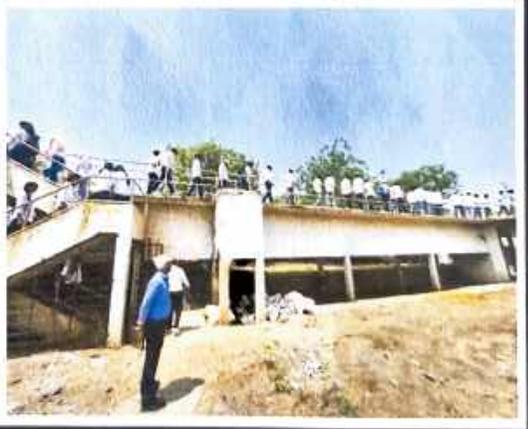

Name of the Department: - Civil Engineering Department

Name of the event:	Site visit to Water Treatment Plant, Farola, Chh. Sambhajinagar
Date of the event:	9 th April 2025
Participants	Civil Engineering Second Year Students and 3 Faculty Members
Location of visit:	Water Treatment Plant, Farola, Chh. Sambhajinagar
Summary of the event:	The Department of Civil Engineering organized a site visit to the Farola Water Treatment Plant located at Chhatrapati Sambhajinagar, for second-year Civil Engineering students as part of their academic curriculum. The visit took place on 9 th April 2025, starting at 10:30 AM. During the visit, the site engineer provided a detailed explanation of each stage of the water treatment process, including aeration, coagulation, flocculation, sedimentation, filtration, disinfection, and distribution. Students actively participated by asking questions and gaining practical insights into the operations. The visit concluded successfully at 1:00 PM, providing valuable hands-on learning experience for the students.
Outcome(s):	<ul style="list-style-type: none">➤ Participants acquired practical knowledge of the various stages involved in water treatment, from aeration to distribution.➤ Participants understood the real-time operation and functions of equipment used in a Water Treatment Plant (WTP).
